

What I like About Our School

I like coming to school every day because I can get heaps of education through out the day and we have the best teachers in the world. We have a fabulous library. It has about 1000 books in it and we can borrow all the books. Mrs Bello takes the P.E. lessons and she lets us have a lot of fun. I think our computer lab is the best because we can play games and do anything we want. We have the best Chaplin. We call him Chappy. Our playground is so good, we have heaps of equipment. Mr Mac is one of those nice funny teachers but he mows and waters the grounds. He makes the grounds around the school look FABULOUS!!! That's what I think of my school.

What I Like About Our School

Ayr State School is a great school because there are lots of caring and friendly people, lots of equipment and fun things to do. The grounds are well looked after and interesting and we have a good principal. There is lots of help in the classroom. I will enjoy Ayr State School for ever.

What I Like About Our School

There are many great ways to describe Ayr State School. Here, we have quality education, dedicated teachers and very friendly students.

We also enjoy our extra-curricular programs. This offers us a wide range of activities from enhancing our drama skills to even learning how to play many different musical instruments.

Our principal and teachers encourage our efforts to work to the best of our ability and they reward us for behaving well. For example once every term we have Rewards Day. Each student is awarded a gift voucher which can vary from food to a movie pass.

We also enjoy our inter-school sports day which is on each week. By participating in this, it gives us a wide range of challenging competition.

All of the children here are very friendly. It's very easy to make new friends because they are very accepting and encouraging. They will pick you up when you're feeling down and will always be a shoulder you can lean on.

At Ayr State we also have an anti-bullying policy. This teaches children to reject bullying and to speak out about it.

Annually the Year six and seven go on a school camp. This is a fun and educational way of learning.

Overall, I'm very glad to be a student at Ayr State School. It lives up to its motto "Always your best."
